

Coronavirus disease (COVID-19) COMMUNITY SITUATION REPORT

FNHA Public Health Response

September 7, 2021

Changes from the previous Community Situation Report are in red.

COVID-19 Updates

First Nations Cases in BC – As of September 7, 2021

- There have been a total of **8,956** First Nations COVID-19 cases (**8,761** lab diagnosed cases and **195** epi-linked cases). This is an increase of **489 cases among First Nations people in BC** since the last published report.
- Out of the total **8,956** cases, **3,720 (41.5%)** are in or near community; **5,055 (56.4%)** are off reserve. As geographical information is not available, information on in or near community/off reserve is not available for **181 (2.0%)** cases.
- There are total **618** active First Nations COVID-19 cases in British Columbia. There are **246** active COVID-19 cases residing in or near community.
- Sadly, there have been total **143** COVID-19 related deaths reported among First Nations living in BC since the beginning of the pandemic. **One** additional death is reported since **the last published** report.
- There have been a total **906 (10.1%)** First Nations people hospitalized due to COVID-19 since March 1, 2020. Of these **385** hospitalizations are individuals who live in or near community and **519** off reserve. Information on in or near community/ off reserve is not available for 2 cases.

First Nations COVID-19 Cases by Health Authority (n=8,933)

Updated: Sep 05, 2021

Data Sources: PHSA Public Health Lab Data and BC CDC's COVID-19 Surveillance Line List

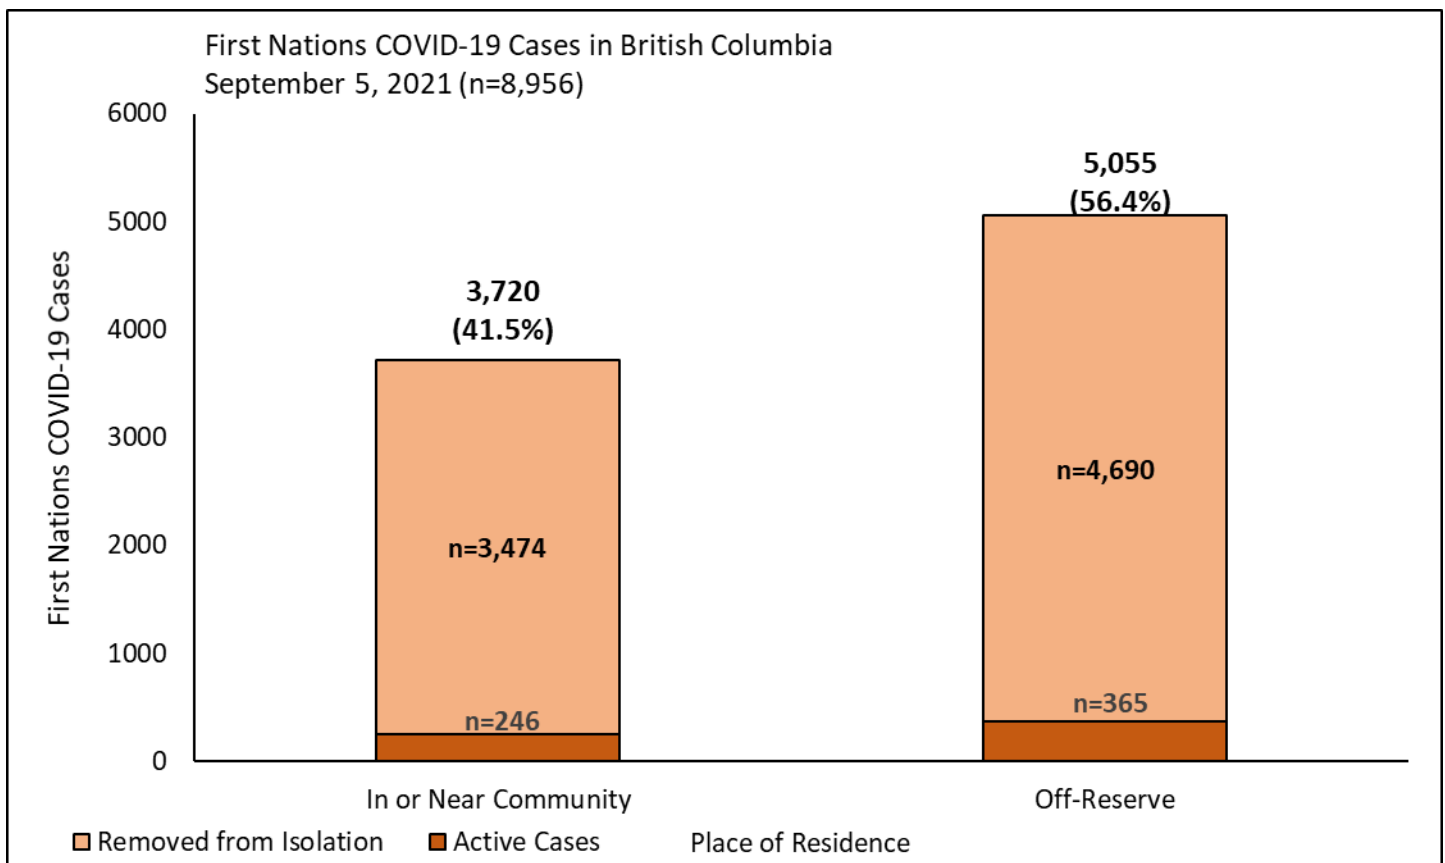

*Total number of cases (n=8,956) includes one (1) case reported as "Out of Canada" resident, fifteen (15) cases reported as "Out of BC – Alberta" residents, one (1) case reported as "Out Of BC – Ontario", one (1) case reported as "Out Of BC – Quebec, one (1) case reported as "Out Of Canada - Country other", and four (4) cases reported as "Out of BC – Saskatchewan" resident. Above figure provides regional distribution of COVID-19 cases (n=8,933) reported as BC residents.

Regional Active cases and Testing data as of September 5, 2021

	Fraser Salish	Interior	Northern	Vancouver Coastal	Vancouver Island	Total N (%)
Active First Nations COVID-19 cases ^a	87	209	181	98	40	618
Total persons tested ^b	10,671	11,290	12,392	9,375	9,833	53,589
Cumulative percentage positivity (%) (Feb, 2020 to September 5, 2021)	7.1%	10.5%	16.9%	9.4%	7.2%	10.3%
Percentage positivity (%) over the past week (August 29 to September 5, 2021)	12.4%	27.8%	28.6%	16.7%	9.4%	20.3%
Testing rate (total tests per 100,000 First Nations people)	76,122.4	55,174.7	45,607.7	75,380.1	41,475.1	55,724.9

^a Algorithm to define people who are removed from isolation is updated on February 5, 2021, to reflect change adopted by PHSA. Updated algorithm assigns cases who are lost to follow up and whose surveillance date (reported date and if not available then result date) >=20 days before the line list case dataset date to "removed from isolation." Two cases are reported as "Out Of BC – Alberta" and one case is reported as "Out Of BC - Saskatchewan,"

^b Geographical Information (RHAs) for 28 BC First Nations people who are tested for COVID-19 is not available. They are included in total number of First Nations people tested in BC.

*Total number of cases (n=8,956) includes 181 cases without information on LHA of residence and "In or Near Community" analysis. Information about in or near community analysis is not available for seven (7) active case.

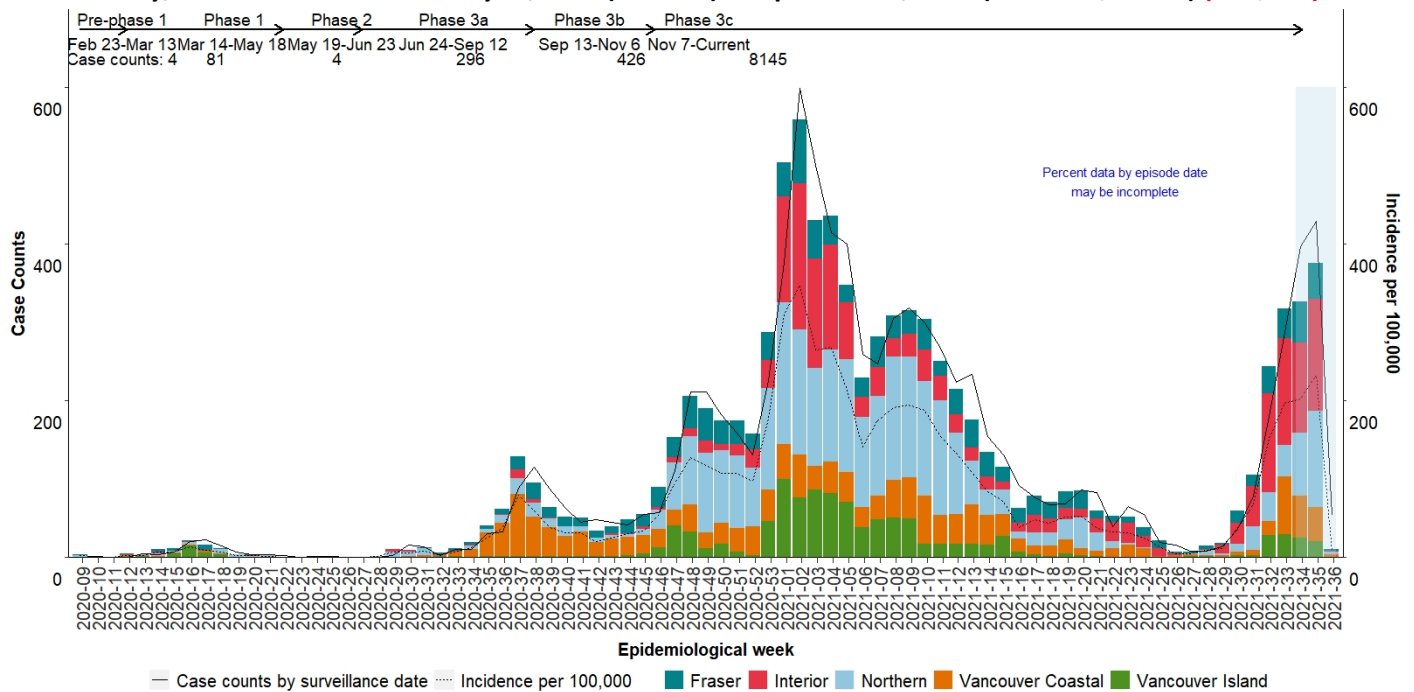

Note: Analyses for in or near community includes lab confirmed cases and epi-linked cases with known geographical information. Other cases (including case tested outside of BC) are included in the cases by Health Authority. **As of September 5, 2021, there were 246 active First Nations COVID-19 cases in or near community.**

There is an increase in the proportion of COVID-19 cases among <17 years old and 18-39 years old from June 1 to September 5, 2021 compared to cases reported between from January 15 to May 31, 2021.

The cumulative percent positive for all COVID-19 test completed for First Nations in BC was **10.30%** as of **September 5, 2021**. The rate of positive cases was **5,516.4 per 100,000** people among First Nations. The rate of positive case among other residents of BC was **3,245.7** per 100,000 people.

Epidemic curve for COVID-19 cases among BC First Nations by episode date (coloured bar),^a surveillance date (line) and health authority, British Columbia February 23, 2020 (Week-9) – September 5, 2021 (Week-36, 2021*) (n=8,956)

^a Episode date is now defined as date of illness onset, hospital admission, or death. When those dates are not available, earliest lab date (collection date or result date) is used, and if unavailable, surveillance date is used. Report date used previously is now replaced with surveillance date (laboratory result date); if unavailable, report date is used.

^b Data source: BCCDC's line list data received from RHAs (up to September 3, 2021) and PHSA's public health lab data (up to September 5, 2021). This epidemiological curve represents the weekly cases reported among First Nations in BC. The proportion of cases within each region is colour coded and the case counts each day are represented by the solid black line. The incidence per 100,000 are represented by the dotted line. Regions are represented in the diagram as: Fraser – Dark blue, Interior – Red, Northern – Light Blue, Vancouver Coastal – Orange, and Vancouver Island – Green.

First Nations COVID-19 Vaccination Coverage, by Health Authority

Doses 1 and 2 (PHSA e-form, PIR, dose 1=96,098, dose 2=80,293) 12+ years, up to September 6, 2021

* HA information was not available for 1,070 clients for dose 1 and 598 clients for dose 2
 **These analyses were only possible for Status and Status eligible First Nations, and do not include non-status First Nations

First Nations COVID-19 Vaccination Coverage, by Age Group

Doses 1 and 2 (PHSA e-form, PIR, dose 1=96,744, dose 2=80,666), 12+ years, up to September 6, 2021

* Age group information was not available for 424 clients for dose 1 and 225 clients for dose 2
 **These analyses were only possible for Status and Status eligible First Nations, and do not include non-status First Nations

Vaccine Distribution

- As of September 6, 2021, more than 105,996 individuals 18+ years of age and more than 9,054 individuals ages 12-17 who are First Nations people (and some non-First Nations people living in or near First Nations communities) have received one dose of a COVID-19 vaccine. Of these individuals, more than 88,206 First Nations people 18+ years of age and more than 6,482 First Nations individuals 12-17 years old have received two doses. This includes vaccines administered in First Nations communities, as well as outside of communities by regional health authorities.
- As of September 6, 72.3% of 18 and older, and 70.6% of 12 and older, status and status-eligible First Nations people in BC have received at least one dose of a COVID-19 vaccine
- As of September 7, 85.1% (3,943,729) of eligible people 12 and older in BC have received their first dose of COVID-19 vaccine and 77.6% (3,594,929) have received their second dose

Provincial COVID-19 Cases – Updated as of September 7, 2021, 4:18 p.m.

- Since the start of the pandemic, there have been 170,750 confirmed cases in BC, and 1,842 deaths from COVID-19
- There are 5,465 active cases, 255 people are currently hospitalized and, of those, 126 people are in intensive care
- Of the total number of cases, 163,062 (95.5%) people have fully recovered

*Total number of cases (n=168,325) include 234 cases reported as "Out of Canada" residents. Above figure provides regional distribution of COVID-19 cases (n=168,091) reported as BC residents.

Active Outbreaks (as of September 7, 2021)

- Long-term care/assisted living centres/independent living: 19 outbreaks
- Acute care units: 2 outbreak

* A geographic distribution of COVID-19 by Local Health Area can be found [here](#).
* A weekly update on Variants of Concern can be found [here](#).

First Nations Community Statistics from Indigenous Services Canada (August 26, 2021):

Access Restrictions: 135 (same)	Security Checkpoints: 70 (same)
Band Offices Inaccessible: 82 (same)	State of Local Emergency: 63 (same)
	EOC Activations: 121 (same)

FNHA Response

Working with First Nations

The FNHA is working in partnership with First Nations communities to ensure communities' needs are met, including:

- Maintaining essential services to support First Nations communities during this pandemic.
- Providing COVID-19 funding resources and wrap around supports including for medical transportation, self-isolation and quarantine. See the [FNHA Community Support Guide](#) for more information. Support requests can be sent to COVID19needs@fnha.ca
- Supporting First Nations communities in refreshing their Pandemic Plans
- FNHA continues to maintain operations team availability to respond to COVID-19 support requests through the weekends during business hours.
- Launching virtual care services including First Nations Virtual Doctor of the Day and First Nations Virtual Substance Use and Psychiatry Service
- Site selection, training and deployment of Point of Care Testing for COVID-19 is underway.

Working with Partners

The FNHA is continuing to work with our provincial and federal partners towards aligning response efforts in support of First Nations communities and people living away from home across the province. This includes:

- Maintaining regular communication and updates with Regional Health Authorities, Emergency Management of BC, Ministry of Health, First Nations Leadership Council, and Indigenous Services Canada to proactively identify needs and address issues Supporting planning at both the provincial and regional level for the Rural, Remote and Indigenous Framework,
- FNHA is in discussions federally and provincially to support BC Restart including reopening of public buildings, and return to work and business operations for facilities where safe and appropriate.

Vaccinations

- The FNHA is working hard with our partners and First Nations communities to support vaccine distribution and planning and to prioritize available doses for First Nations communities
- Remote and isolated First Nations communities have been identified as a priority for vaccination with the first doses having arrived on December 29, 2020.

Personal Protective Equipment

- The FNHA continues to work with Federal and Provincial partners to obtain Personal Protective Equipment (PPE) for health care staff and first responders in all communities.

- First Nations communities requiring personal protective equipment during the COVID-19 emergency can send their requests to COVID19needs@fnha.ca.
- Additional details in the FNHA Guide: Accessing Personal Protective Equipment for First Nations Communities: <https://www.fnha.ca/Documents/FNHA-Accessing-Personal-Protective-Equipment-for-First-Nations-Communities.pdf>
