Appendix A - Overview of the FNHA

A.1. The First Nations Health Authority

The first and only provincial First Nations Health Authority in Canada, transforming health services for First Nations and Aboriginal people in BC.

A.2. Why a First Nations Health Authority?

Statistically significant health disparities exist for First Nations people in BC and across Canada with health outcomes that consistently lag behind those of other Canadians. The First Nations Health Authority aims to reform the way health care is delivered to BC First Nations to close these gaps and improve health and wellbeing.

A.3. A New Relationship with our Partners

BC First Nations, the Province of BC, and the Government of Canada have all determined that First Nations health disparities are no longer acceptable. A New Relationship between these Tripartite Partners was forged and a series of precedent-setting agreements led to the creation of a First Nations Health Authority. The FNHA is mandated by two health agreements (the Transformative Change Accord: First Nations Health Plan [2006], and the Tripartite First Nations Health Plan [2007] – collectively “the Health Plans”), the BC Tripartite Framework Agreement on First Nation Health Governance [2011] and resolutions at the annual Gathering Wisdom events and the Framework Agreement.

In 2013, the First Nations Health Authority assumed responsibility for the design and delivery of health programs and services for BC First Nations formerly delivered by Health Canada’s First Nations Inuit Health Branch – Pacific Region. The FNHA has a broad mandate to improve health services for BC First Nations through new partnerships, closer collaboration, and health systems innovation.

A.4. Making History Today and Tomorrow

As the First Nations Health Authority has assumed responsibility for the historic transfer of programs, resources, assets, staff, and responsibilities, we are developing an organization that reflects First Nations culture and philosophy. Establishing a strong foundation prepares us to innovate, transform, and redesign health service delivery with guidance from BC First Nations in the coming years.

A.5. Responsive, Visionary, Transformative

The First Nations Health Authority is part of a unique health governance structure that includes political representation and advocacy through the First Nations Health Council, and technical support and capacity development through the First Nations Health Directors Association. Collectively, this First Nations health governing structure works in partnership with BC First Nations to achieve our shared vision.

The mandate of the FNHA is to:

- a) Plan, design, manage, deliver and fund the delivery of First Nations Health Programs in British Columbia;
- b) Receive federal, provincial and other health funding for or to support the planning, design, management and delivery of First Nations Health Programs and to carry out other health and wellness related functions;

REOI – General Contractor for Repairs / Renovations to Wuikinuxv Health Station

- d) Incorporate and promote First Nations knowledge, beliefs, values, practices, medicines and models of health and healing into the First Nations Health Programs, recognizing that these may be reflected differently in different regions of BC;
- e) Be constituted with good governance, accountability, transparency and openness standards;
- f) Establish standards for First Nations Health Programs that meet or exceed generally accepted standards;
- g) Collect and maintain clinical information and patient records and develop protocols with the BC Ministry of Health and the BC Health Authorities for sharing of patient records and patient information, consistent with law;
- h) Over time, modify and redesign health programs and services that replace Federal Health Programs through a collaborative and transparent process with BC First Nations to better meet health and wellness needs;
- i) Design and implement mechanisms to engage BC First Nations with regard to community interests and health care needs;
- j) Enhance collaboration among First Nations Health Providers and other health providers to address economies of scale service delivery issues to improve efficiencies and access to health care;
- k) Carry out research and policy development in the area of First Nations health and wellness;
- l) The FNHA may undertake other functions, roles and responsibilities connected to health and wellness of First Nations and other aboriginal people in BC.

The FNHA is governed by a nine member Board of Directors who collectively brings years of experience in First Nations health, community development, financial management and political expertise at all levels of government.
