Coronavirus disease (COVID-19) FNHA Public Health Response Community Situation Report
January 18, 2021

Note: Changes from the previous Community Situation Report are in red.

COVID-19 Updates

Provincial COVID-19 Cases – Update as of January 15, 2021 at 3:11pm
There have been a total of 60,117 confirmed cases in BC, and 1,047 deaths. The regional breakdown, since the beginning of the pandemic, is as follows:

Regional breakdown of total number of COVID-19 cases in BC

As of January 15, there were 4,604 active cases in the province, 349 people were hospitalized, and of those, 68 people were in ICU. There are 7,132 people under active public health monitoring due to an identified exposure. Of the total number of cases, 53,115 (88.4%) patients have fully recovered.

Active Outbreaks (as of January 14, 2021)
- Long-term care/assisted living centres: 52 outbreaks
- Acute care units: 112 outbreaks

Vaccine Distribution
- Remote and isolated First Nations communities have been identified as a priority for vaccination and the first doses arrived December 29th. As of January 11th, 2021, more than 4000 First Nations individuals have received their first dose of the COVID-19 vaccine.
- As of January 15, 75,914 people have received a COVID-19 vaccine in B.C

***A geographic distribution of COVID-19 by Local Health Area can be found here.
First Nations Cases in BC
As of January 13, 2021

- Total 2,761 First Nations COVID-19 cases (2,683 lab diagnosed cases and 78 epi-linked cases). This is an increase of 191 cases since January 14, 2021 report.
- Geographical information (in or near community/off reserve) is available for 2,699 cases. Of these 2,699 cases, 1,138 (42.2%) cases are in or near community and 1,561 (57.8%) are off reserve.
- 753 active First Nations COVID-19 cases, 416 (55.2%) of the active cases are in or near community and 328 (43.6%) are off reserve. Information on in or near community/off reserve is not available for 9 cases.
- Sadly, there have been total 32 COVID-19 related deaths reported among First Nations living in BC since the beginning of the pandemic. This is an increase of 1 since January 14, 2021 report.
- There have been a total 310 (11.9%) First Nations people hospitalized due to COVID-19 since March 1, 2020. Of these 129 hospitalizations are individuals who live in or near community and 180 off reserve.

*Total number of cases (n=2,761) includes two COVID-19 cases reported as residents of Yukon, one case reported as “Out of Canada” resident and two cases reported as “Out of BC – Alberta” resident. Above figure provides regional distribution of COVID-19 cases (n=2,756) reported as BC residents.

* Total number of active cases (n=753) includes two COVID-19 cases reported as residents of Yukon, one case reported as “Out of Canada” resident and two cases reported as “Out of BC – Alberta” resident.
**Geographical Information (RHAs) for 24 BC First Nations people who are tested for COVID-19 is not available and these 24 people are tested Negative.
First Nations COVID-19 Cases in or Near Community*

As of January 13, 2021, there were 416 active First Nations COVID-19 cases residing in or near community. The majority (72.0%) of cases among First Nations have occurred in those under age 50.

The cumulative percent positive for all COVID-19 test completed for First Nations in BC was 6.71% as of January 13, 2021.
The rate of positive cases was 1,700.6 per 100,000 people among First Nations. The rate of positive case among other residents of BC was 1,157.7 per 100,000 people.

Epidemic curve for COVID-19 cases among BC First Nations by lab result date or report date (coloured bar), report date (line) and health authority, British Columbia February 23, 2020 (Week-9) – January 13, 2021 (Week-2, 2021*) (n=2,761)

Data source: BCCDC’s line list data received from RHAs (updated up to January 13, 2021). From (January 14, 2021 report, COVID-19 cases are reported in epidemic curve by date of lab results where available (n=2,634) and otherwise by date the case was reported to public health units of regional health authorities (n=127).

This epidemiological curve represents the weekly cases reported among First Nations in the province of BC. The proportion of cases within each region is colour coded and the case counts each day are represented by the solid black line. Regions are represented by following coloured bars in the diagram: Fraser-Dark blue, Interior-Red, Northern-Light Blue, Vancouver Coastal-Orange, Vancouver Island-Green.

On First Nations reserves in all provinces, as of January 15, 2020, Indigenous Services Canada is aware of:

- 12,580 confirmed positive COVID-19
- 4,827 active cases
- 535 hospitalizations
- 7,640 recovered cases
- 113 deaths

Case numbers per region:

- British Columbia: 1,138
- Alberta: 4,086
- Saskatchewan: 3,217
- Manitoba: 3,110
- Ontario: 382
- Quebec: 439
- Atlantic: 8

First Nations Community Statistics from Indigenous Services Canada (January 14, 2021):

- Access Restrictions – 131 (+2)
- Band Offices Inaccessible – 89
- Security Checkpoints – 53 (+5)
- State of Local Emergency – 86 (+5)
- EOC Activations – 111 (-1)
FNHA Response

- FNHA is on Week 42 of Level 3 Emergency Response, which means that FNHA spends 80% on COVID-19 and 20% on FNHA operations.
- Compounding the COVID-19 response is the increase in overdose deaths and re-emergence of flooding and forest fires that are affecting our First Nations communities.

Working with Partners:
- FNHA continues to work with its partners, and First Nations communities to identify needs and develop plans at both the provincial, and regional level for the Rural, Remote and Indigenous Framework.
- FNHA is in discussions federally and provincially to support BC Restart including reopening of public buildings, and return to work and business operations for facilities.

Working with First Nations:
- Continues to maintain essential services to support First Nations communities during this pandemic.
- Supporting First Nations communities in refreshing their Pandemic Plans, and provide COVID-19 resources for medical transportation, isolation and quarantine.
- “First Nations Virtual Doctor of the Day” is up and running in all five regions, which is to close this gap by providing virtual access of physicians to First Nations communities.
- FNHA continues to maintain operations team availability to respond to Isolation requests through the weekends during business hours.
- Site selection, training and deployment of Point of Care Testing for COVID-19 is underway.
- Supporting First Nations communities with the re-opening of their health centres.
- FNHA and First Nations Leadership calls on March 26, April 9, April 23, May 7, May 27 and June 4.
- FNHA and First Nations Health Directors calls on April 3, April 17, May 1, May 15 and May 29.
- FNHA and First Nations Leadership and Health Directors calls on June 18, July 9, July 16, July 23, July 30, August 20 and September 17.

Personal Protective Equipment:
- The FNHA continues to work with Federal and Provincial partners to obtain Personal Protective Equipment (PPE) for health care staff and first responders in all communities.
- PPE orders are received and shipped to all Regional Offices weekly basis.
- First Nations communities requiring personal protective equipment during the COVID-19 emergency can send their requests to the FNHA at the following email: COVID19needs@fnha.ca. Please refer to additional details in the FNHA Guide: Accessing Personal Protective Equipment for First Nations Communities: https://www.fnha.ca/Documents/FNHA-Accessing-Personal-Protective-Equipment-for-First-Nations-Communities.pdf

FNHA Resources

The FNHA website has been updated and has been divided into three sections: Community Leaders, Health Professionals and Public. https://www.fnha.ca/what-we-do/communicable-disease-control/coronavirus.

The FNHA has published an updated Communicable Disease Emergency Response (CDER) plan template – a living document that is user friendly, easy to follow and adaptable to each community’s needs and strengths. https://www.fnha.ca/Documents/fnha-communicable-disease-emergency-response-plan.docx

FNHA’s Communicable Disease Emergency (CDE) team is available to support communities, including support updating/creating a Communicable Disease Emergency Response (CDER) plan, scenario/exercise discussions and full scale planning exercises. The CDE Management team can be reached via email: cdmgmt@fnha.ca.
