First Nations peoples have rich histories of wellness. Colonialism has had damaging impacts on health, including harms caused by tuberculosis (TB).

TB is a preventable and curable disease caused by a bacteria that usually affects the lungs. It spreads from person to person through air.

This summary describes TB prevention and care among people who self-identified as First Nations in BC from 2018 Panorama data.

Data Source: Panorama (Provincial Central Public Health Information System), 2018.
