

# For you, your future, your community.

## Did you know there's a common virus called HPV that can lead to cancer later in life?

The good news is that the HPV vaccine can help protect you from 6 types of cancer.

### It works

When given at a young age, the vaccine is over 95% effective at preventing cancers caused by HPV.

### It's free

In BC, the HPV vaccine is free for youth starting in Grade 6.

### It's safe

Over 200 million doses have been safely given worldwide.

### It's for all genders

The HPV vaccine offers protection for everyone, including women, men, Two-Spirit, and gender-diverse people.
