

Mental Health Benefits

First Nations Health Authority
Health through wellness

First Nations Health Benefits offers you a mental health plan through the Mental Wellness and Counselling Program to support you on your wellness journey.

Mental Health Service Providers offer culturally safe counselling and therapy to enhance your well-being and work through life's challenges, such as trauma, depression, anxiety and more.

Did you know?

First Nations Health Benefits partners with Providers across a range of 25-30 clinical specialties, including substance use, anxiety, Elder counselling, and more.

What my plan covers

Your plan covers counselling services from Providers who are trained in cultural safety and are registered with First Nations Health Benefits, including:

- Psychologists
- Clinical Counsellors
- Social Workers

Note: Telehealth options are available.

What my plan does not cover

Some services that are not covered by your mental health plan include, but are not limited to:

- Psychiatric emergencies
- Services for the purpose of a third party (e.g., school application, employment assessment, etc.)

If you are covered by more than one benefit plan, ask your provider about coordinating them as they may work together to cover costs.

To have your mental health plan details at your fingertips, download the Pacific Blue Cross (PBC) App by scanning the QR code, or visit pac.bluecross.ca, to login to your member profile.
