

Panorama Coronavirus (COVID-19) Data Entry – QuickGuide

In the **INVESTIGATIONS** module, use the search clients page to find your Client. Select the row action **SUBJECT SUMMARY** to open the client chart. If the client does not have a Panorama chart, **CREATE** a client chart.

EDIT/UPDATE CLIENT INFORMATION

	Menu/Actions	Important Notes
1	Contact your Local Public Health Unit /RHA	Ensure you connect with your local Public Health Unit to collaborate on Client's Coronavirus investigation. Use the FNHA Panorama Case and Contact Workflow For Indigenous Communities for documentation workflow guidance
2	LHN > Investigation > Subject Summary (Scroll to the <i>Communicable Disease Investigation, excluding TB and STI Encounter Group</i> section)	View Coronavirus Investigation (if available). Select the Coronavirus infection Investigation by clicking on the Investigation ID hyperlink . You know you are in the client Investigation when you see <u>2</u> banners in the context header on the top of the page for <i>Client</i> and <i>Investigation</i> ID
3	With your client in context: LHN > Client > Client Details > Client Demographics	Review and update the client's Client Demographics Ensure that <i>Health Region-Branch</i> is correct (ie. location of closest Public Health Unit for client location of residence). Ensure client address and phone numbers are correct.
4	LHN > Client > Client Details > Indigenous Information	Review and update client's Indigenous Information. Complete questions and enter client's current <i>Indigenous Organization</i> . The name of your community organization will have an (I) following it's name.
5	LHN > Subject > Allergies	ADD/Edit client Allergies or set to/confirm NO KNOWN ALLERGIES

REVIEW/UPDATE CLIENT INVESTIGATION INFORMATION

	Menu/Actions	Important Notes
6	LHN > Subject > Risk Factors	Using the table, review/update all <u>pertinent</u> Risk Factors. ADD Special Population - Pregnancy Relevant to Disease Investigation Risk Factor if applicable (<i>Additional Information</i> : expected due date; <i>Response</i> : Yes; <i>Effective from</i> : estimated date of conception; <i>Effective to</i> : date client no longer pregnant) APPLY and SAVE the page.
7	LHN > Investigation > Signs & Symptoms	(*for Case Report Form only) Using the table, view and update all present and non-present client symptoms. ADD details as needed. SAVE all changes.

REVIEW/UPDATE CASE OR CONTACT UDF FORMS; CREATE NOTE

	Menu/Actions	Important Notes
8	LHN > Investigation > Investigation Details > Links & Attachments	Go to the <i>Filled Out Forms</i> Section and select the radio button (○) next to the UDF you wish to review/update. Select UPDATE . The UDF will open in a separate modal (popup). Update the UDF using the guidance provided in the FNHA COVID-19 Entry Guidance document
9	LHN > Investigations > Subject Summary	Create Encounter and Notes (either <i>Unassociated</i> or <i>Investigation</i> level note)
10	Follow up with your Local Public Health Unit /RHA if you:	<ul style="list-style-type: none"> Notice errors or update the client's <i>COVID-19 Surveillance Case Investigation Form</i> Are unable to contact the client to complete their <i>Active Daily Monitoring</i> assessment (case or contact of case) Assess that your client has developed or worsening symptoms during the monitoring period (Case or Contact of Case)
10	(Cont'd)	

		<ul style="list-style-type: none">• Believe there should be an Investigation open for your client and you can't find it in Panorama
--	--	---

CONSIDERATIONS:

- Please use this resource in conjunction with your corresponding RHA guidelines for case and contact followup
- Each RHA will create an Investigation either through direct entry into Panorama or by *Case Report Form (CRF)*. CHN will review client case report form in Panorama. If updates/changes are needed, communicate with your local PHU. Update case report form in Panorama as needed. Eg. Updating phone number, address, Risk Factors, initial Signs and Symptoms
- Do not create new case forms or monitoring forms in the Client COVID-19 chart. Only update existing forms.
