

First Nations Health Authority
Health through wellness

Artwork by Sterling Watts

The Hummingbird mark was chosen by Nurses as it represents delicacy and strength to endure hardships and struggles. Hummingbirds, like nurses are messengers of peace; they are gentle and caring; they heal your body and soul guiding you through the challenges that life can bring. Hummingbirds are independent and have unlimited energy, much like nurses. Nurse's work independently and work tireless hours tending to people's needs, they are supporters and friends. This special bird is capable of the most amazing feats despite its size and often travel great distances to find peace, nurses travel far to work with remote communities and embrace life in the work they do.

NOVEMBER 2014 NURSING EDUCATION FORUM

The Art of Living

November 18-20 & 25-27, 2014

2014 Call for Proposals: Community Wellness Projects Showcase Deadline: Wednesday, October 15, 2014

Have you initiated or participated in a wellness project within your community?

If so, please showcase your **Community Wellness Project** at the Nursing Education Forum in November 2014.

Who should submit?

The conference planning committee welcomes individuals and organizations to submit presentations showcasing your Community Wellness Project.
