 - Vision
 - Mission Statement
 - Goals & Objectives
- Annual Strategies (achieving the Goals/Objectives)
- Implementing the Plan: Working Groups

FNHC 2015-18 Strategic Plan – *what is it?*

- Overview of our direction for the coming three years
 - Outlines our long-term vision and mission
- Outlines our three-year goals and objectives

FNHC 2015-18 Strategic Plan – Overview

FNHC 2015-18 Strategic Plan – *How did we get here?*

- The result of a series of strategic planning exercises, which were fed by the emerging priorities from the Regional Health and Wellness Plans.
- Strategic Plans for FNHC, FNHDA, and FNHA were created in partnership

Strategic Plan

FIRST NATIONS HEALTH COUNCIL

	Healthy, Self-Determining and	l Vibrant BC First Nation Childre	en, Families and Communities	
				MISSION
As champions of change and		C team leads systems transforn tructures, and building healthy	nation by honouring our ancest partnerships	ral teachings, upholding ou
				GOALS
Promote Health Literacy and Model Healthy Leadership	Uphold & Enhance Governance Structure and Standards	Provide Leadership in Transformation	Advance learning, advocacy, communications, and group process	Achieve Progress on Wellness Determinants
				OBJECTIVES
 Lead with culture, ceremony, and teachings in the work of the FNHC and the regions. As individuals, live healthy and well, and model healthy leadership. Champion health literacy across BC First Nations and the BC health system, including through campaigns through leadership engagement and acting as spokespersons on health literacy issues. Provide a leadership perspective and advocacy related to health literacy, including self-advocacy, and health literacy as a two-way conversation which improves the cultural competency and safety of the health system for First Nations. 	 Provide leadership for the development of good health governance, particularly regional processes for governance and decision-making that uphold the separation of governance and operational functions and build on successes and best practice. Provide leadership locally, regionally, and provincially to ensure that the First Nations health governance structure is maintained, and to resolve any arising governance issues or challenges. Maintain a strong governance partnership with federal and provincial governments through implementation of the Health Partnership Accord. Collaborate with the FNHC and FNHDA to implement the joint commitments in the health plans/agreements to achieve our shared vision. 	 Develop a clear and regional- based process for transformation that builds on the strength of regional structures and respects roles of the FNHC, FNHDA, FNHA. Develop a transformation plan informed by regional priorities and issues and responsive to emerging opportunities Provide a leadership perspective to the resolution of pressing issues and advancement of immediate transformative opportunities. 	 Define and implement an effective and transparent process for FNHC advocacy. Maintain quality orientation, reporting and communications products to support the FNHC's accountability to First Nations leadership. Support learning, training and development opportunities that support the FNHC and BC First Nations leadership to continue to develop health governance. Establish and maintain high functioning working processes and practices of the FNHC. 	 Build a BC First Nations wellness determinants of health agenda from the ground-up, utilizing the Directives and the engagement pathway processes. Establish and implement a robus forward agenda for Deputy Ministers Tables federally and provincially. Utilizing the collaboration framework, develop strong and clear partnerships with First Nations political and other provincial organizations to advance the wellness determinants.

STRATEGIES (to be developed annually)

Guiding Elements

- First Nations Perspective on Wellness
- Shared Values (FNHC, FNHA, FNHDA)
 - 7 Directives
- Reciprocal Accountability

Vision

Healthy, Self-Determining and Vibrant BC First Nation Children, Families and Communities

Mission Statement

As champions of change and personal well-being, our FNHC team leads systems transformation by honouring our ancestral teachings, upholding our governance structures, and building healthy partnerships.

Goals and Objectives

Goal 1 Promote Health Literacy and Model Healthy Leadership

Objective 1.1

Lead with culture, ceremony, and teachings in the work of the FNHC and the regions. **Objective 1.2**

As individuals, live healthy and well, and model healthy leadership. Champion health literacy across BC First Nations and the BC health system, including through campaigns, leadership engagement, and acting as spokespersons on health literacy issues.

Objective 1.3

Objective 1.4

Provide a leadership perspective and advocacy related to health literacy, including self-advocacy, and health literacy as a two-way conversation which improves the cultural competency and safety of the health system for First Nations.

Goal 2 Enhance First Nations Governance Structure and Standards

Objective 2.1

Provide leadership for the development of good health governance, particularly regional processes for governance and decision-making that uphold the separation of governance and operational functions and build on successes and best practice.

Objective 2.2

Provide leadership locally, regionally, and provincially to ensure that the First Nations health governance structure is maintained, and to resolve any arising governance issues or challenges.

Objective 2.3

Maintain and develop a strong governance partnership with federal and provincial governments through implementation of the Health Partnership Accord.

Objective 2.4

Collaborate with the FNHC and FNHDA to implement the joint commitments in the health plans/agreements to achieve our shared vision.

Goal 3 Provide Leadership in Transformation

Objective 3.1

Develop a clear and regional-based process for transformation that builds on the strength of regional structures and respects roles of the FNHC, FNHDA, and FNHA.

Objective 3.2

Develop a transformation plan informed by regional priorities and issues and responsive to emerging opportunities.

Objective 3.3

Provide a leadership perspective to the resolution of pressing issues and advancement of immediate transformative opportunities.

Goal 4 Advance learning, advocacy, communications, and group process

Objective 4.1

Objective 4.2

Define and implement an effective and transparent process for FNHC advocacy. Maintain quality orientation, reporting and communications products to support the FNHC's accountability to First Nations leadership.

Objective 4.3

Support learning, training and development opportunities that support the FNHC and BC First Nations leadership to continue to develop health governance.

Objective 4.4

Establish and maintain high functioning working processes and practices of the FNHC.

Goal 5 Achieve Progress on Wellness Determinants

Objective 5.1

Build a BC First Nations Wellness Determinants agenda from the ground up, utilizing the 7 Directives, the Regional Health & Wellness Plans, and the engagement pathway processes.

Objective 5.2

Establish and implement a robust forward agenda for Deputy Ministers Tables federally and provincially.

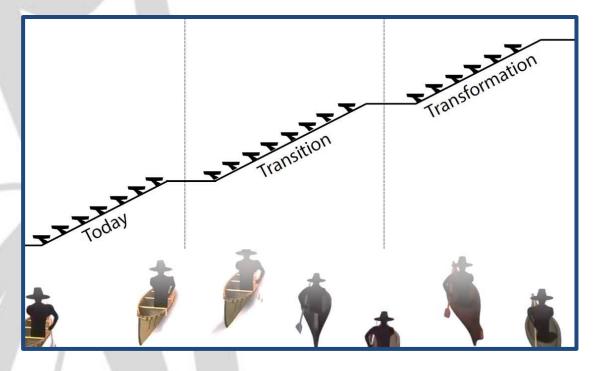

Objective 5.3

Utilizing the FNHC's Collaboration Framework, develop strong and clear partnerships with First Nations political and other provincial organizations to advance the wellness determinants.

FNHC Annual Strategies

- Annual Strategies: ways to achieve our Goals and Objectives
- Strategies will be updated each year by FNHC (2015-16, 2016-17, and 2017-18)
