

# Coronavirus disease (COVID-19) COMMUNITY SITUATION REPORT

## FNHA Public Health Response

July 26, 2021

Changes from the previous Community Situation Report are in red.

Starting July 5, 2021, due to falling COVID-19 cases, Situation Reports will be updated and published once every week. There will also be some structural changes to this report to protect the privacy of individuals.

### COVID-19 Updates

#### First Nations Cases in BC – As of July 26, 2021

- There have been a total of 7,492 First Nations COVID-19 cases (7,307 lab diagnosed cases and 185 epi-linked cases). This is an increase of 16 cases among First Nations people in BC since the last published report.
- Out of the total 7,492 cases, 3,170 (42.3%) are in or near community; 4,175 (55.7%) are off reserve. As geographical information is not available, information on in or near community/off reserve is not available for 147 (2.0%) cases.
- There are total 21 active First Nations COVID-19 cases in British Columbia. There are five active COVID-19 cases residing in or near community.
- Sadly, there have been total 138 COVID-19 related deaths reported among First Nations living in BC since the beginning of the pandemic. No additional deaths are reported since the last published report.
- There have been a total 822 (11.0%) First Nations people hospitalized due to COVID-19 since March 1, 2020. Of these 360 hospitalizations are individuals who live in or near community and 460 off reserve. Information on in or near community/off reserve is not available for 2 cases.

First Nations COVID-19 Cases by Health Authority (n=7,480)

Updated: Jul 24, 2021

Data Sources: FNHA Public Health Lab Data and BCDC's COVID-19 Surveillance Line List

\*Total number of cases (n=7,492) includes one (1) case reported as "Out of Canada" resident, eight (8) cases reported as "Out of BC – Alberta" residents, one (1) case reported as "Out of BC – Ontario", one (1) case reported as "Out of Canada - Country other", and one (1) case reported as "Out of BC – Saskatchewan" resident. Above figure provides regional distribution of COVID-19 cases (n=7,480) reported as BC residents.

### Regional Active cases and Testing data as of July 24, 2021

	Fraser Salish	Interior	Northern	Vancouver Coastal	Vancouver Island	Total N (%)
Total persons tested <sup>a</sup>	9,923	9,985	11,690	8,912	9,366	49,902
Cumulative percentage positivity (%) (Feb, 2020 to July 24, 2021)	6.7%	8.5%	16.4%	8.9%	7.1%	9.6%
Percentage positivity (%) over the past week (July 18 to July 24, 2021)	2.0%	5.3%	3.6%	1.3%	0.0%	2.8%
Testing rate (total tests per 100,000 First Nations people)	68,126.4	46,794.8	42,097.1	69,744.7	38,764.9	50,369.9

<sup>a</sup> Geographical Information (RHAs) for 26 BC First Nations people who are tested for COVID-19 is not available. They are included in total number of First Nations people tested in BC.

The majority (73.2%) of cases among First Nations have occurred in those under age 50.

The cumulative percent positive for all COVID-19 test completed for First Nations in BC was 9.62% as of July 24, 2021. The rate of positive cases was 4,614.6 per 100,000 people among First Nations. The rate of positive case among other residents of BC was 2,878.7 per 100,000 people.

**Epidemic curve for COVID-19 cases among BC First Nations by episode date (coloured bar),<sup>a</sup> surveillance date (line) and health authority, British Columbia February 23, 2020 (Week-9) – July 24, 2021 (Week-29, 2021\*) (n=7,492)<sup>b</sup>**

<sup>a</sup> Episode date is now defined as date of illness onset, hospital admission, or death. When those dates are not available, earliest lab date (collection date or result date) is used, and if unavailable, surveillance date is used. Report date used previously is now replaced with surveillance date (laboratory result date); if unavailable, report date is used.

<sup>b</sup> Data source: BCCDC’s line list data received from RHAs (up to July 22, 2021) and PHSA’s public health lab data (up to July 24, 2021). This epidemiological curve represents the weekly cases reported among First Nations in BC. The proportion of cases within each region is colour coded and the case counts each day are represented by the solid black line. The incidence per 100,000 are represented by the dotted line. Regions are represented in the diagram as: Fraser – Dark blue, Interior – Red, Northern – Light Blue, Vancouver Coastal – Orange, and Vancouver Island – Green.

**First Nations COVID-19 Vaccination Coverage, by Health Authority**

Doses 1 and 2 (PHSA e-form, PIR, dose 1=89,397, dose 2=66,991) 12+ years, up to July 24, 2021

\* HA information was not available for 901 clients for dose 1 and 434 clients for dose 2

\*\*These analyses were only possible for Status and Status eligible First Nations, and do not include non-status First Nations

## First Nations COVID-19 Vaccination Coverage, by Age Group

Doses 1 and 2 (PHSA e-form, PIR, dose 1=89,951, dose 2=67,374), 12+ years, up to July 24, 2021

\* Age group information was not available for 347 clients for dose 1 and 51 clients for dose 2

\*\* These analyses were only possible for Status and Status eligible First Nations, and do not include non-status First Nations

### Vaccine Distribution

- As of July 24, 2021, more than 100,600 individuals 18+ years of age and more than 7,300 individuals ages 12-17 who are First Nations people (and some non-First Nations people living in or near First Nations communities) have received one dose of a COVID-19 vaccine. Of these individuals, more than 78,700 First Nations people 18+ years of age and more than 1,600 First Nations individuals 12-17 years old have received two doses. This includes vaccines administered in First Nations communities, as well as outside of communities by regional health authorities.
- As of July 24, 68% of all status and status-eligible First Nations people in BC age 18 and older have received at least one dose of a COVID-19 vaccine
- As of July 23, a total of 6,422,503 doses of vaccine have been administered in BC, of which 2,693,582 are second doses

### Provincial COVID-19 Cases – Updated as of July 23, 2021, 2:16 p.m.

- Since the start of the pandemic, there have been 148,842 confirmed cases in BC, and 1,767 deaths from COVID-19
- There are 603 active cases, 46 people are currently hospitalized and, of those, 17 people are in intensive care
- Of the total number of cases, 146,463 (98%) people have fully recovered

## Regional Breakdown of Total Number of COVID-19 Cases in BC (n=148,623)

Updated: Jul 23, 2021

Data Sources: British Columbia COVID-19 Dashboard

\*Total number of cases (n=148,842) include 219 cases reported as "Out of Canada" residents. Above figure provides regional distribution of COVID-19 cases (n=148,623) reported as BC residents.

### Active Outbreaks (as of July 23, 2021)

- Long-term care/assisted living centres/independent living: **1** outbreaks
- Acute care units: **1** outbreak

\* A geographic distribution of COVID-19 by Local Health Area can be found [here](#).

\* A weekly update on Variants of Concern can be found [here](#).

### First Nations Community Statistics from Indigenous Services Canada (July 22, 2021):

Access Restrictions: 135 (same)	Security Checkpoints: 69 (same)
Band Offices Inaccessible: 80 (same)	State of Local Emergency: <b>59 (+10)</b>
	EOC Activations: 114 (same)

## **FNHA Response**

### **Working with First Nations**

The FNHA is working in partnership with First Nations communities to ensure communities’ needs are met, including:

- Maintaining essential services to support First Nations communities during this pandemic.
- Providing COVID-19 funding resources and wrap around supports including for medical transportation, self-isolation and quarantine. See the [FNHA Community Support Guide](#) for more information. Support requests

can be sent to [COVID19needs@fnha.ca](mailto:COVID19needs@fnha.ca)

- Supporting First Nations communities in refreshing their Pandemic Plans
- FNHA continues to maintain operations team availability to respond to COVID-19 support requests through the weekends during business hours.
- Launching virtual care services including First Nations Virtual Doctor of the Day and First Nations Virtual Substance Use and Psychiatry Service
- Site selection, training and deployment of Point of Care Testing for COVID-19 is underway.

### **Working with Partners**

The FNHA is continuing to work with our provincial and federal partners towards aligning response efforts in support of First Nations communities and people living away from home across the province. This includes:

- Maintaining regular communication and updates with Regional Health Authorities, Emergency Management of BC, Ministry of Health, First Nations Leadership Council, and Indigenous Services Canada to proactively identify needs and address issues Supporting planning at both the provincial and regional level for the Rural, Remote and Indigenous Framework,
- FNHA is in discussions federally and provincially to support BC Restart including reopening of public buildings, and return to work and business operations for facilities where safe and appropriate.

### **Vaccinations**

- The FNHA is working hard with our partners and First Nations communities to support vaccine distribution and planning and to prioritize available doses for First Nations communities
- Remote and isolated First Nations communities have been identified as a priority for vaccination with the first doses having arrived on December 29, 2020.

### **Personal Protective Equipment**

- The FNHA continues to work with Federal and Provincial partners to obtain Personal Protective Equipment (PPE) for health care staff and first responders in all communities.
- First Nations communities requiring personal protective equipment during the COVID-19 emergency can send their requests to [COVID19needs@fnha.ca](mailto:COVID19needs@fnha.ca).
- Additional details in the FNHA Guide: Accessing Personal Protective Equipment for First Nations Communities: <https://www.fnha.ca/Documents/FNHA-Accessing-Personal-Protective-Equipment-for-First-Nations-Communities.pdf>
